

## Hopin Guide – Joining via an iPad / Tablet

1. On your iPad / Tablet, locate the “App Store” or “Play Store”.
2. Search for “Hopin”. The Hopin app has a blue circular logo.
3. Tap “Get” or “Download”.

You may need to authorise the download on your tablet, but don't worry, there is no cost to this – the app is free.

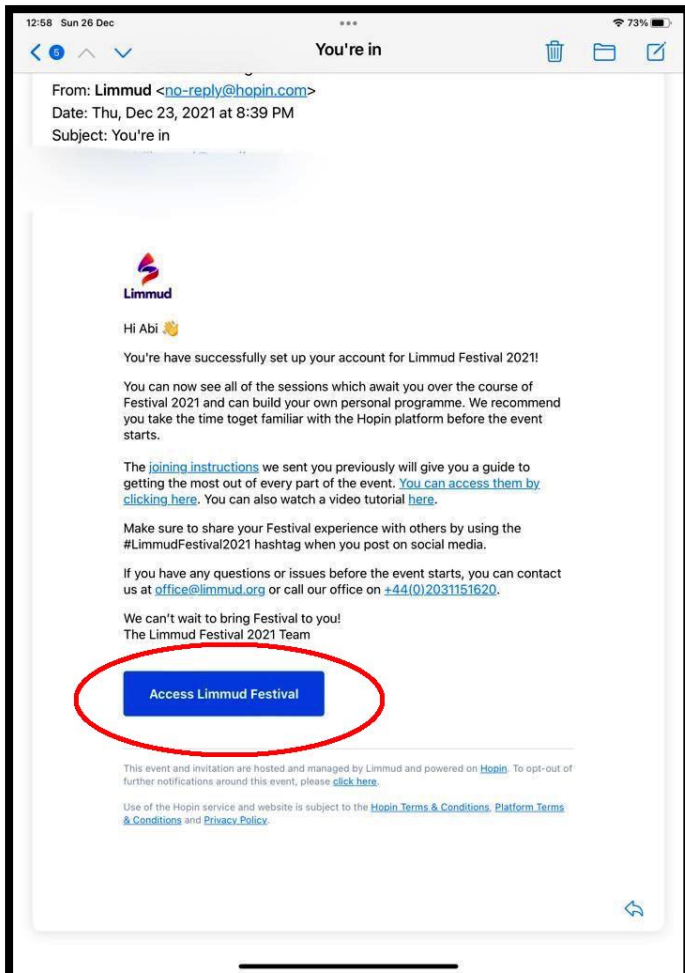

4. Once Hopin has downloaded onto your device, it should look like this:

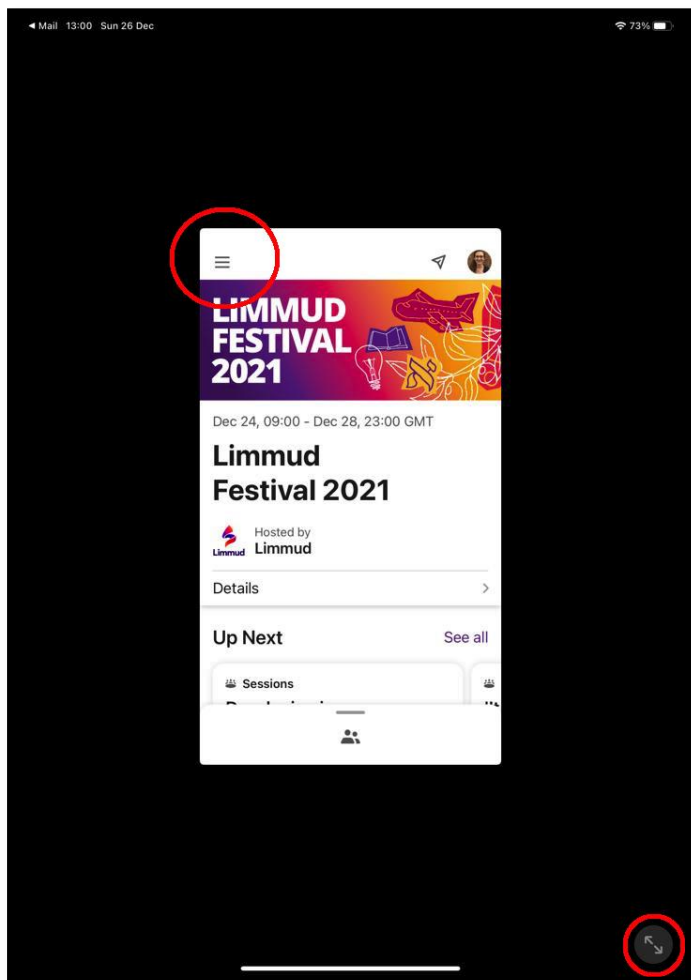

5. Do not open the Hopin app.

Instead, go back to your emails to locate the message from Limmud with the subject line “You’re in”.

Tap on the blue box at the bottom which says “Access Limmud Festival”.

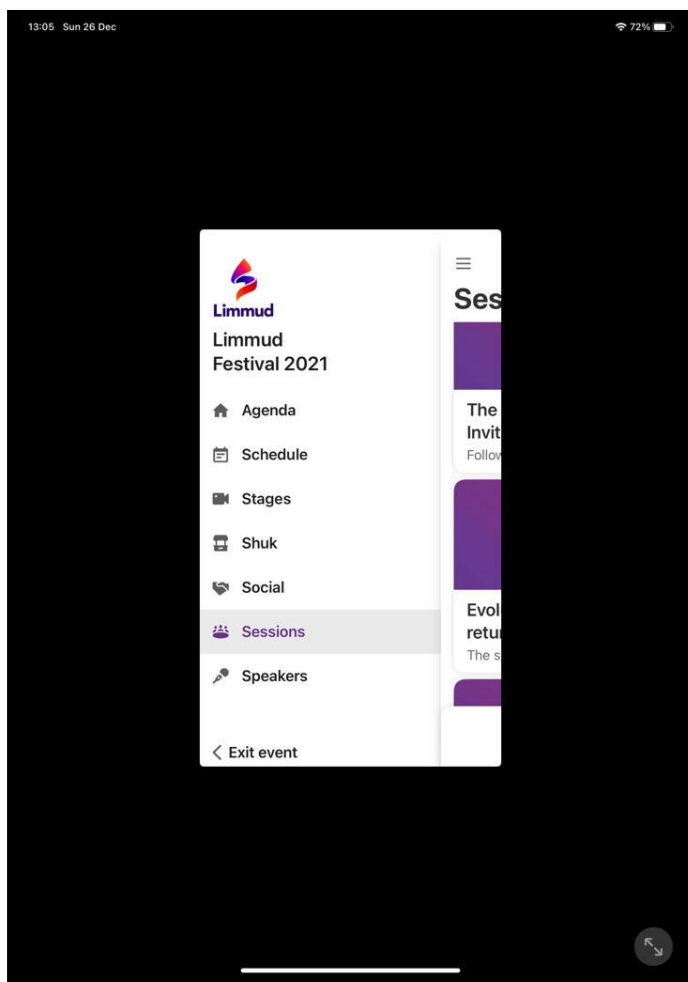

6. This should now open the Limmud Festival 2021 event in your Hopin app.
7. At this point you might be asked by Hopin to allow notifications to your device – this is not essential so you can decide based on your preferences.
8. You may also be asked to allow Hopin to access your microphone and camera. Allow this if you think you might want to show yourself on camera at any point during the event.
9. To make the screen bigger, tap the button with the two diagonal arrows in the bottom righthand corner of your screen. (see below)
10. Tapping the three little grey lines in the top lefthand corner will take you to a menu.

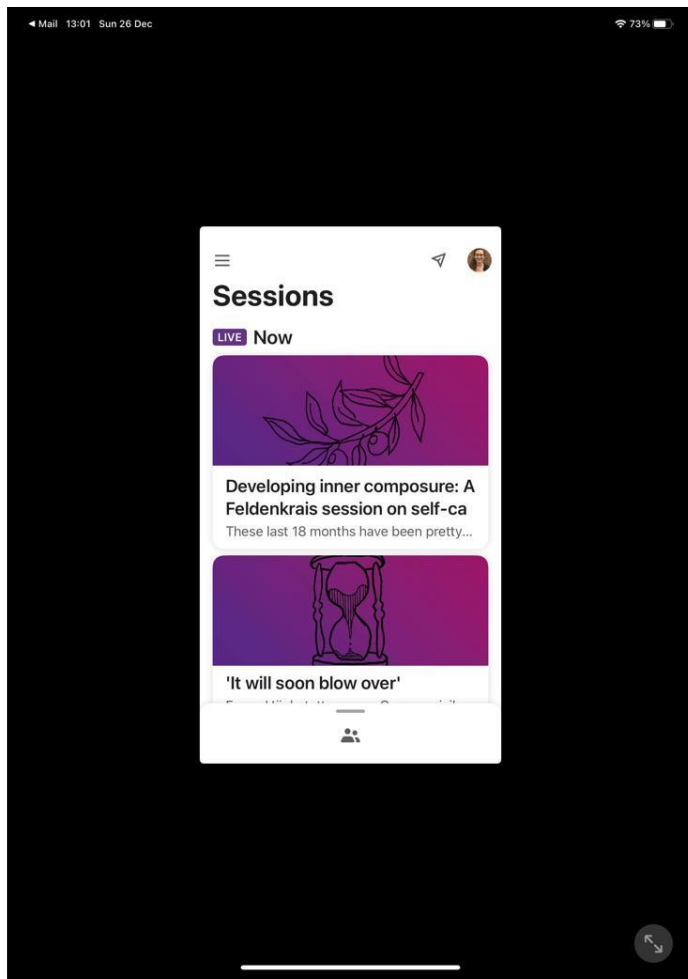

11. From this menu you can navigate to different parts of Limmud Festival, such as the Shuk, Sessions or the Agenda (to see what is coming up later).

12. Tap on “Sessions” to take you to what is on right now.

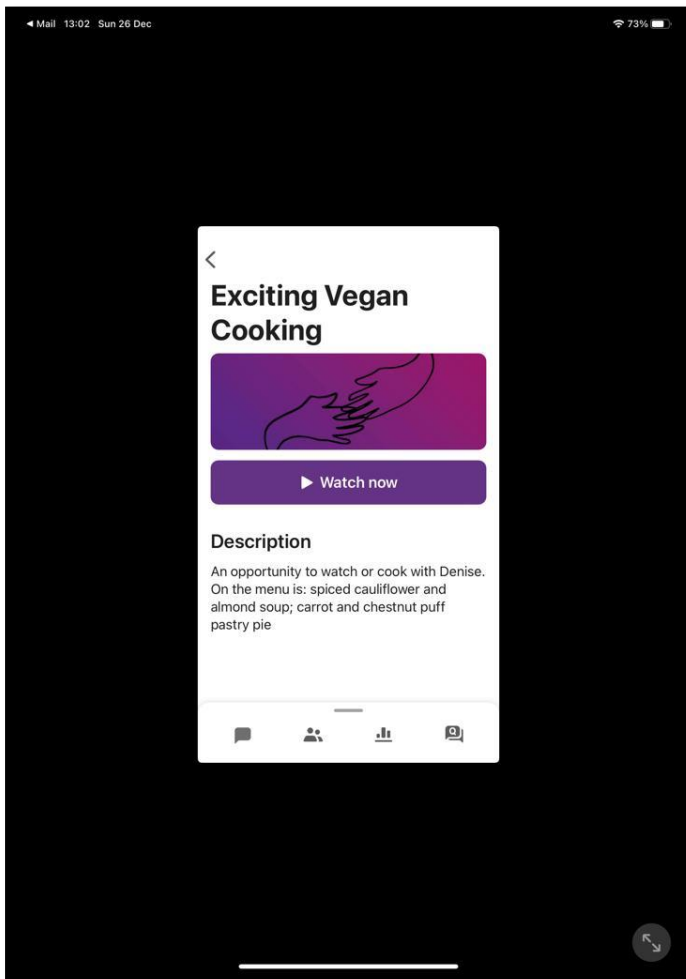

13. You can scroll through sessions about to start (or currently happening) here.

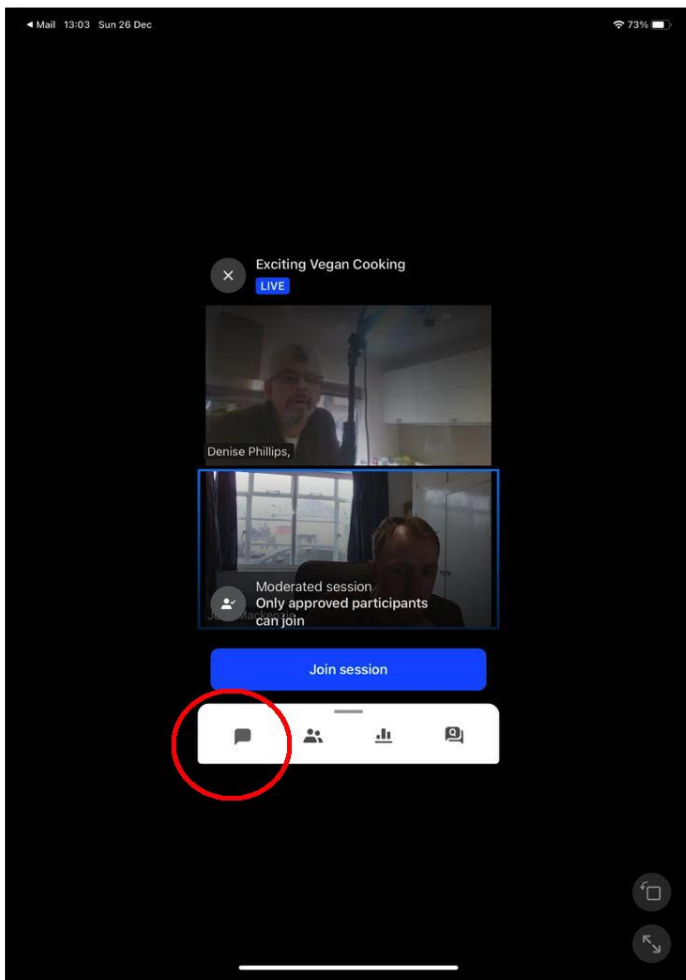

14. Pick one you like and tap on it.

15. Tap “Watch now” to join the session.

16. You **do not** need to click “Join Session” again unless you wish to turn your camera and microphone on to contribute to the session directly. Most people will not contribute in this way but will instead send messages or ask questions in the chat box.
17. You can access the chat box via the little grey speech bubble symbol at the bottom of your screen.

18.If you wish to leave a session, tap the grey “x” in the top lefthand corner of your screen. When prompted by the message below, tap “Leave”.
